Don, I got your voice message regarding your request to issue a separate permit for the most southern two trees (1 Ficus and 1 Podocarpus) between 77th street and 80th street on the west side. This is due the the fact that the Lutheran Church was issued a permit for their trees along this stretch and these two trees are the only trees that will remain after you remove all the trees under that permit.

Now the subject two trees were approved under the permit for the rest of the trees from Howard Hughes to Manchester and I think you just need to have that permit on you in case any problem occurs when you take all the trees down between 77th and 80th streets.

I am not comfortable extrapolating these two trees from the original permit as it seems like some funny business to me so if you want to pursue it further you (or John Rulen) need to communicate with George Gonzalez or Ron Lorenzen of the downtown office. They can be reached at [\(213\) 847-3077](tel:2138473077).

Thanks
